

# Tanjung Manis to be Malaysia's first Solar City

ET - 9/10/2009 - Friday

**TANJUNG MANIS:** Tanjung Manis will be developed as the first Solar City in Malaysia, with technology fully transferred from Taiwan using the latest solar glass PV.

Solar City will use the concept of self-supply, which promotes energy saving and minimum carbon generation.

According to Chief Minister Pehin Sri Haji

Abdul Taib Mahmud the Tanjung Manis Halal Hub would plan with Solar City concept and directions to fit with the life, ecology and produce high technology environment,

attracting international first class talents and companies.

He told a media conference after the launching of Tanjung Manis Halal Park here yesterday that

the Solar City concept was in line with the development of Sarawak Corridor of Renewable Energy (SCORE), which would provide environment-friendly alternative energy.

The solar concept would be applied in other areas as well, particularly to longhouses in the rural areas so that everyone would be able to supply energy elsewhere, too, he added.

# Tanjung Manis bakal jadi *Friday* Bandar Raya Solar pertama M'sia

US - 9/10/2009 -

TANJUNG MANIS, Khamis - Tanjung Manis akan dibangunkan menjadi Bandar Raya Solar pertama di Malaysia melalui teknologi yang akan dipindahkan dari Taiwan melalui gelas PV solar terkini.

Ia berkonsepkan bekal sendiri yang mempromosikan konsep penjimatan tenaga dan pengeluaran karbon yang minimum.

Ketua Menteri Pehin Sri Haji Abdul Taib Mahmud memberitahu dalam sidang media selepas upacara pecah tanah Taman Halal Tanjung Manis hari ini, konsep itu selaras dengan Koridor Pembangunan Tenaga Yang Boleh Diperbaharui (SCORE) yang akan meningkatkan status sosioekonomi rakyat di negeri ini.

Katanya, ia akan turut diusahakan di tempat-tempat lain terutama di kawasan rumah panjang agar rumah panjang berkenaan berkeupayaan membekalkan pula tenaga alternatif kepada jiran-jiran mereka.
